Neighbors Plan Christmas Surprise Box For Local Marine, 19, in Vietnam

A 19-year-old Marine currently serving in the northern sector of Vietnam, near An Hoa, shortly will be surprised with a special gift box, containing a small artificial Christmas tree, complete with all the trimmings, and other gifts, packed and mailed by a group of residents from his neighborhood.

Recipient of the package will be Marine John Wayne Childers, son of Mr. and Mrs. John Childers, 4910 Hill's avenue, near Mitchell, who is in combat with the First Battalion, Fifth Marine Regiment, near An Hoa, a region south of Da Nang.

A preview of the gifts was enjoyed Saturday morning by about 15 neighborhood residents who set up and trimmed the two-foot artificial blue spruce in the home of Mrs.

Doyle Barnes, 4912 Hills avenue, then invited the Marine's parents and family to a surprise party.

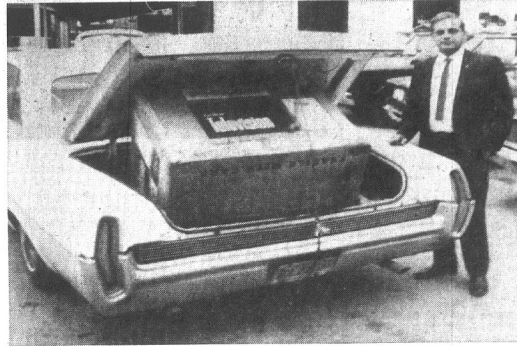

The idea of sending a Christmas tree and accompanying decorations originated with Mrs. Dale (Ruth) Burkett, 4911 Hills avenue, whose own son, Army Sgt. Robert Burkett, was stationed last Christmas at Chu Lai, Vietnam. The soldier has since returned home and presently is based at Fort Ord, Calif.

"We know how much Robert enjoyed receiving a small tree last year, so we got together and decided to prepare the same kind of Christmas box for John," Mrs. Burkett said. "We arranged Saturday's party, hoping to cheer his parents by letting them know we are all thinking about him," she explained.

"I only wish that in other neighborhoods in town, people would get together and choose a local boy who is overseas and do the same thing for him," she said, adding, "we certainly know how much this sort of gift is appreciated from the comfort of our own son and how much it helped to brighten his Christmas."

The neighbors made and purchased unbreakable decorations to pack in the Yuletide box—syrfoam, manna-mans, Christmas candles and popcorn balls. They included small games, pocket crossword puzzles and similar items.

Marine Childers attended Granite City high school and entered in the Marine last November. He has been serving in Vietnam since July 8.

Nine-Hole Golf Course Planned By GC Village Inc.

The nine-hole golf course is to be developed in the new Granite City Village apartment complex south of Pontoon road by Granite City Village Apartments Inc., which obtained a building permit for a club house and another permit for five new apartment buildings.

The golf course will be designed on a 13-plus-acre site located off the fairways will range from about 100 to 133 yards. A reflection lake will be situated off of the first tee, and a bridge will lead from the second hole to the third tee. Sand traps are planned, and bushes will be planted.

Development of the ground for fairways and greens should not be difficult or time consuming, according to Orville Delator, city building inspector. Construction superintendent in charge of the development is John Deffert.

Five two-story buildings containing 32 rooms each were constructed at a cost of \$240,000. The developers started construction in May, 1967, and started the development this year in January with a \$32,000 project.

The two permits were among 10 issued during the first week of November. The permits, totaling \$293,000. Others were obtained by Granite City Village Inc.

Following in 1967, Granite City Village Inc. is planning to build a power station at the plant, \$10,000; Granite City Wash Corp., enclosure car wash at 2701 N. Main St., \$30,000; Max Forbes, a six-room, two-bath brick home at 2423 Waterman, a year for \$22,000; James Vesci, 2216 Waterman, a garage, a wash room, \$40,000.

Robert L. Gull, 2574 Spalding avenue, two-car garage, \$20,000; Walter Aerns, 3211 Edgewood drive, two-car garage, \$20,000; Howard Abernethy, 2818 Victory drive, a garage, \$60,000; and Gary Darr, 829 Dale avenue, two-car garage, \$20,000.

The sheriff's office was informed of the theft at 9:45 p.m. by a report by Darrell Lane, ITR agent, who found a freight car open in the yards. Lane also called Madison and Venice police.

Establish Road Block Night riders William Warfield and John Onksy arrived at about 10:30 and Harrison street and were met by Madison patrolmen William Papp and Edward Gochan. The Madison of the Madison County Jail block and were checking cars leaving the area for stolen TV and stereo sets.

The deputies received a radio call from state police that a white van was heading south on Harrison street with a TV set in an open trunk. Upon reaching the road block, the driver, Parker, stopped the car, jumped out and began running.

Girl, 19, Wounded In Quake Mishap

Lola Meyer Hit in Hip When Gun is Dropped At Home in Venice

Excitement created by Saturday's 11:02 a.m. earthquake resulted in the accidental wounding of a 19-year-old baby-sitter at a home in Venice as her screams brought a would-be rescuer who dropped his gun.

In fair reaction at St. Elizabeth Hospital is 19-year-old Lola Meyer of 2125 Edwardsville road, who was wounded in the right hip. The bullet went upward and lodged near her stomach. She underwent emergency surgery at the hospital.

Miss Meyer was baby-sitting at the home of Bernard Cicio, 1245 Oriole street, when the quake hit and the house began shaking and rattling. She screamed.

He served as Second Ward alderman about 16 years on the Madison council and went off the board in 1964.

Survivors include his wife, Mrs. Opha McMahon; a son, Lt. Col. Charles J. McMahon Jr., who is with the U. S. Air Force in Hawaii; a daughter, Mrs. Walter (Eileen) Rickert of Madison; three sisters, Mrs. Minnie Robinson of Granite City and Mrs. Roy (Florence) Musick and Mrs. Jack (Mildred) Scannell, both of Venice; nine grandchildren and 13 great-grandchildren.

Boy, 4, Hurt Seriously in Fall Off 2nd Floor Porch

A small boy who fell from a second floor porch and sustained serious head injuries shortly before 2:30 p.m. Sunday is in poor condition today at Cardinal Glennon Memorial Hospital, St. Louis.

Mark Evans, four-year-old son of Mr. and Mrs. William Evans, 2115 Benton street, was taken first to St. Elizabeth Hospital and immediately transferred to Cardinal Glennon. A hospital spokesman said this morning that the child's condition is poor, but slight improvement was noted early today and it appears he is beginning to respond.

A neighbor of the Evans family told the Press-Record that the youngster was observed playing on the banister railing of an outside porch, at the top of a flight of stairs.

He was an elder of the First United Presbyterian Church, a member of the Tri-Cities Masonic Lodge No. 1358, and was a member of the Granite City Masonic Lodge in 1968. He also was a member of Scottish Rite bodies of East St. Louis.

His wife preceded him in death. He is survived by a daughter, Mrs. John (Martha) Rice of Chula Vista, Calif., where Dr. MacGalliard lived for a time after leaving here to 20 years ago, Madison.

He was bedridden for 730 p.m. Wednesday.

Samuel L. Meyer, 62, of 2832 Yale drive, local businessman and civic leader, died unexpectedly about 5:40 a.m. Friday at St. Elizabeth Hospital where he was taken at 12:30 a.m. by ambulance from his home.

Mr. Meyer, a lifelong local resident, was proprietor of Tri-City Tent & Awning Co., 1316 Madison avenue, for many years. He had become ill Thursday night, and death was attributed to a cerebral hemorrhage.

He was an elder of the First United Presbyterian Church, a member of the Tri-Cities Masonic Lodge No. 1358, and was a member of the Granite City Masonic Lodge in 1968. He also was a member of Scottish Rite bodies of East St. Louis.

State Clean Air Board Oks 5-Year Plan

Air quality objectives for 10 air pollutants and a comprehensive plan for achieving them were approved by the Illinois Air Pollution Control Board at its meeting in Carbondale Thursday.

The board also approved procedures submitted by 16 industries for reducing air pollutants and made appointments to an advisory committee for the board's study relating to limitations on the sulphur content of coal.

The air quality objectives adopted by the board set limits for air pollutants in the atmosphere to be achieved within five years.

The pollutants covered by the objectives are suspended particulate matter, sulphur oxides, carbon monoxide, hydrocarbons, nitrogen oxides, lead and odors.

The objectives are consistent with those frequently suggested by the federal government. The board's comprehensive plan calls for the preparation

More Layoffs 'In Prospect' At GC Steel Due to Strike

Layoffs of additional steelworkers in the Granite City Steel Co. mill are in prospect due to the strike of nearly 1000 workers at the company's blast furnace department.

Lyle F. Gully, president of the company, said today.

Gully said about 800 workers already have been laid off as direct result of the strike at the blast plant which has made it impossible for the company to operate its steelmaking facilities and one of its rolling mill departments.

Striking workers at the blast plant are members of Chemical Workers Union Local 50 whose leaders have been negotiating with company officials in mediation sessions on an almost daily basis for the past week.

Union demands primarily involve wage increases higher than those granted in recent basic steel package settlements.

with United Steelworkers of America locals throughout the area.

4300 Off Jobs

Gully's announcement came as strikes at three other Quad-City steel plants kept another 2700 workers off their jobs.

Thirteen hundred USWA union members are on strike at Granite City Steel Industries, with another 700 GSI employees laid off because of the strike. At the Madison plant of Dow Chemical Co. 700 steelworkers are on strike in a wage dispute that began last Aug. 31.

The striking force at the Granite City Steel Co. blast plant and the 800 other employees laid off because of that strike brings to more than 4300 the total number of workers now idle in area strike activity.

Chemical workers' union leaders met in contract talks with company representatives on Thursday, Friday and Saturday, but union leaders told the Press-Record today there was no progress. Another meeting is scheduled in the U.S. Madison and Conciliation Service office in St. Louis beginning at 10 a.m. tomorrow.

Situation Serious

Describing the situation as "very serious" Gully said yesterday morning. "The strike is severely limiting Granite City Steel's ability to compete on even terms with other steel companies. The strike also hurts business throughout the Tri-City area because the payroll at Granite City Steel, the area's largest employer, is far below normal."

The firm employs about 3000 employees in addition to the striking chemical workers, most of whom are members of the United Steelworkers of America.

Gully said that the blast furnace employees "are demanding a settlement far in excess of the settlement accepted by the steel industry on a national basis and by a majority of our own employees at Granite City Steel."

Although there have been numerous meetings, (Continued on page 4, col. 5)

He was born in Venice and was a lifelong resident of the local area. He was a retired supervisor for Granite City Steel Co. and worked there 28 years before retiring about six years ago.

Mr. McMahon was a member of the Madison Methodist Church, Madison Lodge 839 AF&M, the White Shrine and the Eastern Star.

He served as Second Ward alderman about 16 years on the Madison council and went off the board in 1964.

FIRST PRESIDENT of the Granite City Jaycees, Fred Stille (right), holds an early history of the local young men's service club, presented by Richard M. Dawdy, current Jaycee president. Stille, who has spent several years in Alaska, was a special guest last week at the Jaycees' "Evening With the Mayor" program.

JC's Endorse School Bond Issue; Confer with Mayor

Granite City Jaycees sought answers to many questions involving community problems from Mayor Donald Partney, who was a guest last week at the club's "Evening With the Mayor" program, and at the same meeting endorsed the \$4,750,000 Granite City school bond issue, to be voted on Dec. 7.

Forty-four attended the program, including the local Jaycee chapter's first president, Fred Stille, who recently returned here after spending several years in Alaska. He reviewed incidents connected with forming the chapter and recalled several amusing anecdotes for the current members.

In addition to endorsing the school bond issue which will authorize District 9 officials to raise the educational tax limit by 40 cents and permit construction of three new school buildings and expansion of facilities at Granite City high school and Coolidge junior high, the Jaycees passage by compiling and distributing informative material.

Chapter members also authorized a \$50 contribution to help defray expenses in publishing information urging local citizens

to vote and approve the proposed tax increase. A series of questions, many centering around poor street conditions, was leveled at Mayor Partney, who explained factors involved in repairing roadways, describing it "as a slow moving process."

Replying to an inquiry concerning plans for seeking a second term in office, the mayor indicated he may not seek reelection "if a good, steady candidate can be found."

Richard M. Dawdy, Jaycee president, urged all members to attend the monthly board meeting Wednesday, Nov. 13, when a "Leadership Training" course will be offered by Gordon Hoerner from the Success Motivation Institute.

Census Bureau interviewers will ask about voter participation in the 1968 election during the Bureau's monthly survey of households here the week of Nov. 18. Director Theodore F. Olson of the Bureau's regional office in Chicago announced today.

Surveyed households will be asked if they were registered, if they voted, if they cast a vote for President, if something prevented them from voting in 1968, and if they voted in the 1964 Presidential election. No questions will be asked about party or candidates. Answers will provide a statistical analysis of the voting habits of persons of voting age. The survey is similar to one made shortly after the 1964 general election.

The questions on voting will be added to the Bureau's regular monthly queries about jobs that provide data to the U. S. Department of Labor for use in determining unemployment figures.

Households in the survey are part of a representative sample throughout the nation, from which the Bureau collects data. All answers are confidential, and the information obtained may be used only for statistical purposes.

Y-Indian Guides Plan Madison Organization

A Y-Indian Guide organizational meeting of Madison fathers of first or second grade boys will be held at 7:30 p.m. Tuesday at the Tri-City Area YMCA, 2001 Edison avenue.

Y-Indian Guides, according to Marvin Van Metre of the "Y" staff, is a father-son program which involves about eight pairs of fathers and sons per tribe. Meetings are held bi-monthly in the homes of members.

The main purpose is to multiply the activities that fathers and sons can do together at an age when the boy thinks his dad is the greatest man in the world and when the boy most needs the masculine influence in the growing up process.

Van Metre said. Y-Indian Guides is a National YMCA program and has been labeled the fastest growing youth program in the nation. Over 225,000 participants are registered.

The organizational meeting Tuesday will be just for the fathers to get to give them information and if possible arrange for first tribal meetings. Those who want further information are urged to call Van Metre at the YMCA, 876-7200.

The seminar will begin at 9:30 a.m. at the National Personnel Records Center, 9700 Page bldg. and will consist of morning and afternoon sessions of approximately three hours each.

A panel will discuss such topics as how to fill out bid forms when selling products or services to the federal government; contract clauses; specifications and standards; and packaging requirements. Enrollment at SIU, SIU-SW To Reach 42,414 in 1970

Enrollment of 42,414 for the Southern Illinois and Carbondale campuses of Southern Illinois University by 1970, an increase of 10,512 from the present student count, is being predicted by university officials. Half of the increased enrollment will be at the Southern Illinois campus. The figures were included in the new 1969-71 budget request for the two campuses totaling \$209,534,734, an increase of \$104,070,507 over the appropriation for 1967-69.

A total of \$41,208,454 of the budget increases is asked to compensate for the increased enrollments, reflecting the higher costs associated with the continuing maturation of the university in the direction of upper-level undergraduate and graduate instruction, as envisioned

in the Illinois Master Plan for Higher Education.

The SIU and SIU-SW budget now is under study by the Illinois Board of Higher Education. Salary and wage adjustments, based on the Higher Board formula, will require an increase of \$10,602,512 for the biennium, while the costs of opening new buildings will add another \$5,816,902.

New instructional programs at all campuses, which include the initiation of medical and dental education, will cost \$13,038,792. Improvement and expansion of existing academic programs is estimated to cost an additional \$3,144,345, while organized research will need \$3,160,160.

The actual enrollment this fall at the two campuses is an increase of 24% over 1968. The projected 1970 enrollment of 42,414 students would include 26,823 on the Carbondale campus and 15,591 on the Southern Illinois campus.

The budget request estimates an income of \$8,874,474 from university sources, including tuition and fees, leaving \$205,660,290 to come from general revenues of the state.

\$1 1/2 Million in New Building in County

Ninety-six building permits listing values totaling \$1,498,717 were issued for new construction in unincorporated areas of Madison county during October by Jack R. Clifford, county building official.

Included were 64 for residences valued at \$1,221,100, 22 for additions and garages, \$368,167; seven for commercial purposes, \$207,800; one advertising sign, \$300; and two for miscellaneous purposes, \$1,500.

2 IESPA Divisions To Meet at SIU-SW

Elementary principals from the Kaskaskia and Marquette Divisions of the Illinois Elementary School Principals Association (IESPA) will meet on the Southern Illinois University-Southwestern campus on Thursday.

Theme for the day-long session is "Toward Quality and Equality in Education."

All activities will be held in the SIU University Center, with the morning sessions in the Meridian Ballroom.

Speakers are W. Deane Wiley, Dean of SIU-SW's Education Division; and Charles Cobbs, principal, Berkeley, Mo., school district.

Wiley will speak on "Quality in the Preparation of the Elementary Principal." "Equality in the Elementary Principalship" is the topic for Cobbs.

Three discussion sessions are scheduled in the afternoon. Leaders and the topics are: James Comer, assistant to the SIU chancellor—"The Principal and the Curriculum," F. V. Pivoda, assistant to the Alton superintendent—"The Beginning Principals," and Charles Cobbs—"Equality in Education."

Also participating in the program will be: Donald Madison, assistant to the SIU Dean of the Education Division; Donald Moore, Alton, president Marquette Division of IESPA; and S. J. Havey, East St. Louis, president Kaskaskia Division IESPA.

A retired minister, Rev. H. H. Wintermeyer, 2639 Delmar avenue, said he was shopping in the Big G Market in the 2300 block of Madison avenue when the quake shook canned goods off the shelf.

In Madison, a man who prefers to remain anonymous, said he was literally shaken out of bed. "I knew something was happening when I saw the antenna on the television set start to shake."

A plaster Crucifix was shaken

en of the wall in the credit manager's office at St. Elizabeth Hospital and fell to the floor, smashing to pieces. Sister Mary Thomas, administrator, said, "We thought at first it was something in the building, but then we found out about the quake, everything was back to normal. It didn't seem to disturb the patients too much."

At the Pre-Record, printer William Diener was working at a makeup stone—a work table with a large steel top weighing nearly a ton. "It actually jumped," he remarked.

Most Quad-Cities made quick inspections of their property after the quake, but no severe damage was reported to authorities.

Illinois Power Co. reported damage to gas or electric lines. A spokesman said no special crews were called out. "If anything was knocked loose, we don't know about it yet," he said today.

Telephone company officials said the sudden surge of phone calls as the quake hit placed an extra heavy burden on the dial mechanisms and delayed local calls. "It seems everybody got on the phone at the same time," an official said.

11 Hurt in Two Mishaps; Toll Is 16 Injured

Injury of six persons in one accident on McKinley bridge and of five others in another separate crash boosted the Quad-City's traffic toll to 16 injuries during the weekend. A total of 22 accidents was reported to area authorities.

Six persons were injured about 11 a.m. Friday when an auto driven by Donald Seibold, 37, of 2515 Hodges avenue, went out of control in the eastbound lane and hit the railings on either side.

Seibold was hospitalized here with head and back injuries, and his wife, Eugenia, was given treatment for scalp contusions. Also injured were passengers Mrs. Yvonne Gray, 29, of 2340 East 25th street, abrasions to her right leg; Lisa Gray, three months old, contusions; Maurice Carney, 5, also of 2340 East 25th street, bruises to his forehead, and Connie Thrasher, 3, of 2637 Route 3, scalp contusions.

Dr. Morris Named RIDC Board Chairman

Dr. Deloye Morris, president of Southern Illinois University, was today elected chairman of the board of directors and the executive committee of the Regional Industrial Development Corporation at RIDC's third annual meeting held at the Missouri Athletic Club, St. Louis.

Dr. Morris succeeds Howard Zimp, who was elected RIDC president. Nicholas P. Veeder, chairman of the board, Granite City Steel Co., retiring RIDC president, was elected to the executive committee along with 14 other regional leaders.

Richard W. Horner, chief administrative officer, Mississippi River Transmission Corp., was elected as vice-chairman of the board of directors.

Other officers elected were: D. Reid Ross, executive vice-president; Vice-Presidents W. R. Cady Jr., director, St. Charles Industrial Development Corp.; William B. Moore, vice-president - general manager, Reynolds Metal Co.; James L. Hurt, president, Employee Savings & Loan Association (former president of the St. Louis Board of Education) and R. R. Shockley, executive vice-president.

He praised RIDC's efforts at binding the region together but pointed out that the region still had more to accomplish before it could be completely united.

Industrial development is the base for a community's total prosperity. We must push ahead with RIDC's programs in a common effort to expand our region's industrial base."

In their report to the membership, Young, Veeder and

Southwestern Bell Telephone Co. also were elected officers.

Also elected were-treasurer, John F. Keydel, Touche, Ross, Bailey & Smart; and secretary, Morton D. May, chairman of the board, The May Department Stores Co.

William F. Hoelscher of the Manufacturers Association of the Tri-Cities was named to the committee.

In his acceptance, Dr. Morris said that he was honored to assume the role of chairman because he has been concerned with the lack of total cohesiveness of the bi-state community.

"I have always been deeply committed to the proposition that this bi-state area is indeed a single economic entity," he said.

More Layoffs

"There has been little or no progress" toward a settlement, he said.

A company official said the firm has offered the chemical workers the same basic steel package that was accepted Oct. 1 by a big majority of union employees at the steel plant, and that it cannot deviate from this pattern to meet a separate and special contract with another union (the chemical workers).

Other Facts Accepted
He said employees doing the same work at blast furnace plants throughout the country already have accepted the same wage increases and same improvements in pensions, insurance and other benefits that have been offered the chemical workers at the blast plant here.

The company, Guley said, "will not and cannot deviate

from the basic steel industry package of wage and benefit increases. This is our offer and it will remain our offer to the Chemical Workers union."

"The Granite City Steel Co. employees are suffering a tremendous loss of money because of this strike, the longer the strike drags on the more it will weaken the company's ability to compete against other steel companies and the more it will weaken the job security of each and every Granite City Steel employee," Guley concluded.

A regular meeting of the Chemical Workers Union is scheduled in the Labor Temple tonight and will include the nomination of officers. The election of officers will be held in a meeting in mid-December.

Cecil "Bud" Phelps is now president of the local.

The first negotiation session in the Dow Chemical Co. strike dispute since Oct. 31 is scheduled in mediation offices at St. Louis Wednesday, but no meetings have been announced in either the General Steel Industries strike or that at American Steel Foundries. The American Steel plant is in operation because its major work force of USWA members signed a new contract Oct. 1. The GSI plant, however, is shut down.

Meanwhile a hearing on a petition for a citation of contempt of court in the Dow Chemical Co. strike has been continued until Dec. 2. The hearing was set last week but was continued by Circuit Judge Harold R. Clark at Edwardsville after several motions were filed in behalf of the union, USWA Local 4804. One of the motions called for a jury trial.

The company filed the petition against the local and three individual members to determine if terms of an injunction granted by the circuit court Sept. 18 had been violated. The injunction prohibited mass picketing at the Dow plant or interference with salaried employees who have remained on the job.

Auto, Truck Collide
An auto driven by George W. Matthews, 2555 Panton road, and a pickup truck operated by Joseph E. Sellers, Wetumpka, Ala., were involved in an accident at 12:20 a.m. Saturday on Nameoki road at Clark avenue.

Kissing Burglar, Six Auto Thefts Reported in Area

A "kissing burglar," theft of six autos and two sets of golf clubs were among crimes reported over the weekend so far in authorities.

Pat Lamm, 2300 Iowa street, reported at 3:15 a.m. today that she was awakened by a man who was kissing her. He was described as being tall, broad-shouldered, with neatly cut dark hair combed backward and wearing a light jacket, dark trousers and white gloves.

She said he was in her apartment about a half hour and kept watching out the back window and kept close watch on the time, stating that his buddies would be there shortly. He asked if she was covered by insurance and if her husband was at home, but she refused to answer. He entered and left through the front door. There was no report of anything being taken.

A glass container half-filled with donations for the muscular dystrophy fund was stolen from the T & R drive-in, 2327 Washington avenue, it was reported at 3:20 p.m. Sunday. The drive-in is sponsored by the Moose lodge.

Golf Clubs Stolen
Edward D. Melton, 2445 Stratford lane, reported to the sheriff's office Saturday that a set of golf clubs, bag and cart were stolen out of his garage.

A set of golf clubs, including seven irons and two woods, a blue plastic bag and a golf cart were stolen from the garage at the home of C. E. Mathias, 34 Oakhurst drive, at 4 p.m. Wednesday, he reported Thursday. Estimated value was \$75 to \$100.

1963 Auto Stolen
A blue 1963 auto owned by Mrs. Benson, 2421 Glen place, was stolen from the 1800 block of Edison avenue after 1 p.m. Sunday, it was reported at 4:15 p.m.

Wilma Penrod, 2717 Iowa street, reported at 10:35 p.m. Sunday that her 1960 auto was stolen from 21st and Benton streets. It was recovered in the 2300 block of Benton.

Jerry Jordan, 1638 Benton street, reported at 11:10 p.m.

1968 CHRISTMAS STAMPS, now on sale at local post offices, are displayed by John Von Nida and Postmaster Theodore Overbeck at the main post office. A reproduction of the stamp which is Jan van Eyck's "The Annunciation," appears below.

Christmas Postage Stamps Now on Sale in Quad-Cities

The 1968 six-cent Christmas postage stamp now is on sale at local post offices.

Postmasters are reminding all Quad-Cityans not only to mail early and use Zip Code numbers but also that six-cent stamps are required on greeting cards up to two ounces.

The new six-cent Christmas stamp is a replica of "The Annunciation" by Jan van Eyck, the 15th century Flemish artist. The painting is one of the major works in the National Gallery of Art, Washington, D. C. The vertical stamp is printed in five colors, with red in the

Angel Gabriel's brocaded robe dominating the design. Yellow, blue, brown and green supply other details.

This is the first stamp to be printed on the new nine-color press at Washington. The initial print order was for 1.5 billion. Local postmasters are stressing this year that Christmas greeting cards with six cents postage that are undeliverable will be forwarded if a new address is available. Cards which are not deliverable at the last office of address will be returned if a return address is shown.

Complete recreation facilities centered around the lake are planned, and lots of a half-acre or more fronting on concrete streets, with all utilities underground, will be offered to individual builders, Sobol said. The subdivision has not yet been named.

Non-Conference Cage Schedule for Venice

The Venice high school Red Devils basketball team will not play any conference games this season, but instead has scheduled a 17-game season against teams from various leagues.

The Red Devil Coach, Bill Oltendorf, reports that the Red Devils are working primarily on fundamentals and in preparing for the opening game against Dupe Nov. 29 at the Venice gym.

The Venice squad, which has 22 boys practicing on the varsity level, has only three lettermen returning. They are Fessor Gray, 5'9" guard, Harold Gontman, 6' forward, and Marvin Hoult, 5'11" forward.

"The group has little varsity experience and is going to need a lot of training," the coach comments. Venice formerly played in the Madison-Clinton-Macoupin Counties Conference and achieved many championships.

ESCAPING FROM DANGER is GCHS Halfback Jim Jones (22) from defensive linebacker Nick Bowman (34). Taken out of the play was Roger Belshe (23).

FOUR AGAINST ONE was a typical defense by the Madison Trojans against the Eagles Friday evening at Bethalto, but the Eagles won the Madison conference game 14-13, ending the season with a three-way tie for first place. Harold Moran (42) is the ball carrier, challenged by Tony Young (55), Tim Bennett (32), Phillip Davis (14) and John Ervin (16).

Trojans Lose By Point; In 3-Way Tie for Title

The Midwest Conference football race ended in a three-way tie for first place Friday evening as the Madison Trojans lost a squeaker at Bethalto 14-13 to give Madison, Bethalto and Dupe the same conference records of 4-1.

Coach Alvin Vonder Haar noted that the MHS offense fumbled six times.

"We did a good job defensively. We held them to minus 46 yards in rushing and gave up only 67 yards in passing for net yardage of 4-14."

Trail 7-0 at half
The Trojans were losing 7-0 at halftime due to a second-quarter TD by Quarterback Cappy Prange, who scored on a one-yard pass. Steve Bast kicked the extra point.

The Eagles had recovered a fumble on the Trojan 40 and moved to the one on a series of false passes.

"They completed over half of their passes, but most of them were short screens where our defense had them played perfectly," the MHS coach related.

Shaw Scores, Run Fails
The Trojans scored in the third quarter on a two-yard slant play by Halfback Dwayne

Shaw. On what proved to be the decisive extra point attempt, there was a bad pass from center, prompting the receiver to try to run the ball into the end zone instead of kicking. He was downed before reaching the goal.

"We scored this TD after we kicked off to them. They ran the ball out to the 30 and fumbled. It was their only fumble," Vonder Haar recalled. The fumble was recovered by Dwayne Hayes for the Trojans.

The Eagles went ahead 14-6 in the last quarter on a nine-yard pass play from Prange to Alan Sykes and an extra point kick by Bast.

Again the Eagles' good field position was the result of a Madison fumble in its own territory, plus a 15-yard penalty. Late in the game, Trojan Quarterback Jim Scott apparently scored but it was nullified by a clipping penalty.

35-Yard TD Pass Play
A few plays later, Scott needed on a 35-yard TD pass play to John Ervin after earlier hitting Ervin with a 17-yard pass in the same drive. Harold James kicked the extra point, but MHS remained a point short of a tie, which would have provided an undisputed championship.

The Trojans fumbled the ball twice on the Eagles 35-yard line

and once on the Bethalto 35 to halt promising advances.

Despite the loss, the MHS defense promised by stopping 36 of the Eagles' 60 plays at the line of scrimmage.

"We had trouble holding onto the ball mainly because of the cold weather," the Trojan coach concluded.

Lead 9-4 in First Downs
MHS had nine first downs, 121 yards rushing, 67 yards passing on four of 10 passes, fumbled six times, punted six times for an average of 29 yards, and lost 38 yards on penalties.

The Eagles earned four first downs, lost 46 yards rushing, gained 87 yards passing on 10 of 17 aerials, lost one fumble, punted seven times for an average of 32 yards and lost no yards in penalties.

Bethalto was the victim by an identical score of 14-13 earlier against Dupe, which bowed to Madison 34-13.

Classic Cage League Coaches Will Meet
A meeting of Classic League basketball managers and coaches of the Granite City park district will be held tomorrow at 7 p.m. at the park office.

Supt. Harold Brown said, "It is important that each team have a representative at this meeting because we plan to discuss the divisions in which each team will compete."

All teams in the High School, Church and Classic leagues are to have their rosters in the park office by Friday. The season will start in late November or early December.

COOLIDGE AGAIN THE CHAMPION
Championship football is nothing new to members of the Coolidge junior high school team, which has finished another season undefeated and as Madison County Junior High Conference champion. The 13-year record under Coach John Torocoff is 84-7-2.

The conference, which started in 1922, has seen the Braves undefeated in conference action in five of the seven years. Another time, the Braves lost one game and were co-champions. And in the other year, they lost the championship by losing one game to Edwardsville 7-0.

This year's final standings find Coolidge first with a record of 6-0-0, Webster of Collinsville second with a 4-1-1 record, Roxana third with 4-2-0, North of Collinsville and Prattville of Granite City tied for fourth with 3-2-0, Edwardsville 3-2-0 and Asumption 1-3-0.

Even Deaf Sophomores
Coolidge started competition in 1955 with an initial record of 3-3-1. The first game that the

Football Tough at 12th Grade Level But 9th Graders Make It Look Easy

Braves played was against the Granite City high school sophomores; Coolidge beat them 13-0.

No team beat the Braves that first year by more than one touchdown, nor did the Braves make over two touchdowns in a game that year.

After the first 1956 victory, Cahokia beat the Braves 14-7 and Madison 13-0, and the Braves tied Bethalto 7-7 and then lost to North of Alton 13-7 and to West of Alton 19-12.

The following year, the Braves went undefeated, beating Cahokia 26-6, Collinsville 25-0, Bethalto 14-0, Madison 7-0, West River 45-0 and Asumption 13-7.

In 1959, the Coolidge squad was 4-1-1, tying in its first game against Edwardsville 13-13, and losing its last game to Cahokia 9-6. Victories that season were against Madison 32-0, Collins-

ville 19-13, Bethalto 34-0 and Asumption 14-13.

Unbeaten 5 Years in Row
The Braves then went for the next five seasons without suffering a defeat. Coach Torocoff recalls that the best team in that period was the 1961 team, which wasn't scored upon until the last game against Belleville.

That year, Coolidge topped Edwardsville 20-0, Clark of East St. Louis 47-0, Collinsville 34-0, Madison 40-0, Prattville 34-0, Cahokia 19-0 and Bethalto 26-12.

The 1964 season also stands out in Coach Torocoff's mind as a good year, when the Braves allowed only seven points during the entire season.

Coolidge victory scores during the year were Madison 7-0, Edwardsville 21-0, Webster 18-0, Roxana 40-0, North 14-7, Prattville 25-0 and Marquette 55-0.

In 1965, the Braves finished in a three-way tie with North and Webster for the championship with records of 4-1.

The 1967 season saw the Braves go undefeated, beating Bethalto 27-0, Edwardsville 25-13, North 32-0, Webster 45-13, Roxana 40-6, Prattville 26-0 and Clark 21-7.

The vehicle ran another stop sign, police gave chase.

Stopped at Grand
The car headed up State street in Madison, and Venice police radioed the Madison and Granite City police departments for assistance. The station wagon turned off State at 12th street and was stopped at Grand avenue as Madison police arrived at the scene.

One of the cars, containing a stereo set, had been opened. On the floor in the trunk was a loaded .38 caliber pistol and a partially filled bottle of gin.

Madison police charged Madison with theft of more than \$150, unlawful possession of firearms, no firearms identification and illegal transportation of liquor. Jordan was charged with illegal possession of alcoholic beverage, unlawful possession of firearms and ammunition, theft of more than \$150 and no fire arms permit.

Sets Found in Field
Police and deputies found other sets in a field near the ITR tracks. They were taken to the county jail.

Sheriff's Investigators Demos
Nicholas and Robert Rizzi, who helped coordinate the action, Friday afternoon that several of the sets were found in Alton.

The two obtained warrants for five of eight suspects after they were implicated by one of the men held in custody who agreed to make a signed statement.

Nicholas and Rizzi were entering their third night without sleep as they were conducting investigations in the ITR case and other crimes, including the theft of 14 color television sets from the Norfolk & Western Railroad yards at Cloverleaf which led to the suspicion of Madison patrolman Theodore Skokio.

The area has been the scene of numerous crimes, including theft of copper valued at more than \$100,000 this year, according to Nicholas.

Warriors Lose Final Game to Maroons, 31-6 Warriors' Basketball Schedule

The Fighting Warriors of Granite High dropped their final game of the season, suffering a 31-6 defeat at the hands of the unbeaten Belleville West Maroons Friday evening at the local field.

For the winless Warriors it was an 8-4 Southwestern conference year and an 0-7-2 season, as Coach Jim Morrison ended his football career here.

The Warriors' quarterback Dave Evans put Granite City on the scoreboard in the second quarter with a plunge through the middle. The Maroons put up 13 points in the first period and six points in each of the remaining three quarters.

It was a cold night and game statistics provided the proof as the Warriors lost four fumbles and Maroons fumbled three times, with recoveries by Warriors Eddie Hagmiller, Roger Laws and Dave Cooper.

The Maroons were persistent in keeping possession of the ball in the first period. Receiving the initial kickoff at the 31, Belleville launched a steady drive of 12 plays to draw first blood on an 11 yard quarterback sneak by John Bunch. Maroons Mike Ripley and Rich Caravia were instrumental in the forward movement.

A Warrior fumble in a mix-up

on receiving the kickoff gave the Maroons the ball on the 28, and in six runs by Bunch, Ripley and Caravia, with the final one yard plunge by Caravia, the Belleville squad hit for a second TD. The kick by Howard Gemm was good.

Finally, it was Granite City's turn to get the ball. Jim Jones ran back the kickoff off to the 44, and the Warriors started to move, getting to the 13 as the first quarter ended.

Four plays later, Evans went over.

In the 14 ground plays to the goal, Warrior Stan Corey carried five times for 20 yards; Jim Jones ran twice for 11; Roger Belshie totaled 10 yards on four tries, and Evans carried three times.

Determined Warriors kicked

off an held the Maroons who were forced to punt and put the ball on the GC 11. However, this time the Maroons held and in six plays, the Warriors advanced only to the 13 before being forced to punt.

On the punt, the Maroons

fumbled and Maroons recovered the ball on the GC 40. The Maroons defense stiffened and tossed the Warriors back 11 yards. A punt sailed only six yards and in six plays, the Maroons went in to scores again on a 26 yard pass play—Bunch to Neil Spiratas.

The score at halftime was 19-6.

In the third period, a 15 yard punt by the Warriors, gave Belleville the ball on the 25. The Maroons were on the move and reached the 13 when there was another fumble and Laws recovered. The Warriors advanced to the 33 before being forced to punt again.

From their own 35, the Maroons steamrolled in five plays to set up Mike Ripley for a dive over the goal with just 15 seconds remaining in the third quarter.

In the final period, the Warriors got the ball on their own 35, and on the third play fumbled. The Maroons took over and Ripley scored from the 11 on an end sweep.

Statistically, Granite City

tallied 13 first downs, 136 yards rushing, 40 yards passing for a total of 176. Four of 11 passes were completed and there were no interceptions. The Warriors punted four times for 20 yards average and lost four fumbles and 35 yards in penalties.

The Maroons racked up 18

first downs with 212 yards rushing and 79 yards passing, to total 291. Five of 16 pass attempts were completed with one interception, and there was one punt for 46 yards. Belleville lost three fumbles and was penalized 85 yards.

Deer Quotas Filled In 5 More Counties

Deer permit quotas have been filled in five more counties, the Illinois Department of Conservation announced today.

The counties are: Bureau, Ogles and Stephenson in northern Illinois; Mason in the central section and St. Clair in the south.

Permit quotas have now been filled in 22 counties: Bureau, Carroll, Jo Daviess, La Salle, Marshall, McHenry, Ogle, Rock Island and Stephenson; Adams, Fulton, Hancock, Mason, Peoria, and Woodford; Hardin, Johnson, St. Clair, Saline, Union, Wayne and Williamson.

ural wildlife area that is pretty much left alone to grow as nature intended. Mosenhien Island would be a great place to start.

Mosenhien is an Illinois Island located in Madison county, and Missouri hunters could hunt on it with a non-resident license. Since we have no non-resident deer permits, they could not hunt deer on it at all.

This points up to what I always bring up this time of year. There is no public land in Madison county where you can simply go in and hunt without permission.

All Land Controlled
All is owned or controlled by some. There are some places where, as the saying goes, "everyone hunts," but these are lands that are owned by someone who either doesn't care if you hunt or simply hasn't caught you in there.

In cases like Mosenhien a new owner will immediately have someone arrested for trespassing. There are many farmers in the county who will allow you to hunt if you will park in their yard and get their permission.

Although it is not necessarily expected, it is a nice gesture to offer some of the game (dressed, of course) when you are done hunting, or perhaps another gift of some sort for the children of the family.

A definite change in attitude

Excellent Quail Season In Illinois is Predicted

Sportsmen can look forward to an excellent quail season, according to Illinois Department of Conservation technicians.

Reports indicate the bobwhite crop is at its highest level in 10 years. The best quail hunting will be in southern Illinois below U. S. Rte. 40, and in western Illinois between the Illinois and Mississippi Rivers from Hancock county to Graton.

The hunting season for quail, cock pheasant and Hungarian partridge will open at noon, Saturday, Nov. 16, and end at sunset, Tuesday, Dec. 31. The rabbit season will open at noon Nov. 16 and end at sunset, Friday, Jan. 31.

Limits are: quail—6 per day, 16 in possession; cock pheasant—2 per day, 4 in possession; partridge—2 per day, 4 in possession; rabbits—5 per day, 10 in possession. Opening day possession limits are the same.

The pheasant population is slightly higher than it was last year.

The best hunting will be in central and east central Illinois, traditionally the center of the highest pheasant population. Within the last 10 years, pheasant numbers to the south and west of the population center have been improving and hunter success has increased.

The Hungarian partridge is a resident of northern Illinois. A few Huns may be found as far south as the southern part of

Stark county and the northern edge of Peoria county but the highest populations are in counties close to the Wisconsin line. The rabbit population is slightly higher than it was last season. The best rabbit hunting will be in southern and western Illinois where the brushy cover this popular game animal requires can be found in greater profusion than in the more intensively farmed areas of Illinois.

Hunting Banned by New Owners of Mosenhien

By DON HASTINGS
Conservation Officer

There has been a great deal of interest in hunting on Mosenhien Island this year, and there is some information on it that needs to be circulated that is not welcome, I am afraid.

Mosenhien is the large island in the center of the Mississippi River just south of the Chain of Rocks dam and bridge. It is a large island of more than 800 acres and is entirely covered with trees and vegetation except for some of the sand beaches.

For many years it has been owned by an estate which, from all appearances, did not object to persons using it for recreation. The estate was assumed by most people to be public land and has been widely used by persons from the St. Louis area as well as our county for all types of sport, including the hunting of deer with bow and arrow. The solid sand beaches are an excellent place for a boating picnic.

Change in Ownership

Recently, however, there has been a change in ownership and I have been contacted by the new owners and asked to advise hunters that they do not want anyone to hunt on the island.

They have asked that it not be trespassed in any manner because of liability and other reasons. They have engaged an overseer who is also a special deputy sheriff to keep people off the island. They have attempted to post it but have had

so much vandalism that the signs are difficult to maintain.

I would suggest that persons do not attempt to go on the island. Under conservation laws, a piece of property does not have to be posted and the owner can prosecute persons for hunting or fishing without permission. The complete responsibility lies on the hunter or fisherman to seek permission before he enters any land or water to hunt or fish.

Lack Hunting Areas

I am sorry to see this come about as we are so short of places to hunt that we can ill afford to have 800 prime acres like this to be closed. You can't, however, argue with the right of a person or persons to close land that they own if they see fit to do so.

The continued closing of more and more hunting ground can be laid directly at the door of those few hunters who mistreat the land and property to the extent that the owners get down on all hunting and close it all.

I had always hoped that some agency of our government might eventually buy Mosenhien and turn it into a park, a game area or a complete recreation area. Perhaps it still can be done in some future time.

It is time, especially in our county, that we set aside some so-called rough or timber ground for public use.

Wildlife Area Needed
Mowed and well manicured parks are a necessity and should also be acquired, but somewhere we need some natural

Planner Needed to Help Start 'Y' Musical Shows

The Tri-Cities YMCA hopes to start a new-style amateur theatrical program for young adults, to include a singing and dancing chorus, choreography, costumes and special lighting. Marvin VanMetre, YMCA adult program director, said today.

Initial formation of the performing group hinges on securing the services of a rehearsal pianist willing to assist in preparing the proposed productions. VanMetre invited any area resident available to serve in this capacity to contact him at 876-7200.

"We hope to evolve this idea into a fun-type program, presenting musical review numbers from Broadway shows, which will be performed for various local organizations upon request. We have excellent leadership available to work with cast members, but first must obtain the services of a pianist to get the program off the ground," he commented.

President-Elect Views the Future: Chance to Fulfill American Dream

By PRESIDENT-ELECT RICHARD M. NIXON

What kind of leadership should a President give?

Is the office too strong, or not strong enough? How can it be made more responsive?

Should a President lead public opinion, or follow it? What are the priorities for Presidential attention, and the range of Presidential responsibilities?

Perhaps the best way to begin my own answer is with another question I have been asked: "Why did you seek the office? With all the troubles that we have, why should anyone want to be President today?"

The answer is not one of glory, or fame; today the burden of the office outweigh its privileges.

It's not because the Presidency offers a chance to be somebody, but because it offers a chance to do something.

Today, it offers a greater opportunity to help characterize the nation than ever before in the nation's history—and if America is to meet its challenges, the President must seize that opportunity.

We stand at a great turning point when the nation is given a new direction, unsure of its role and its purposes, caught in a tumult of change. And for the first time, we face serious, simultaneous threats to the peace both at home and abroad.

In this watershed year of 1968, therefore, America needs Presidential leadership that can establish a firm focus, offer a way out of a time of towering uncertainties. Only the President can hold the vision for the future and rally the people behind it.

He must unite America. He must calm its angers, ease its terrible fears and bring its people together once again in peace and mutual respect. He has to take hold of America before he can move it forward. This requires leadership that believes in law and order, that has the courage to enforce it; leadership that believes in justice and is determined to protect it; leadership that believes in progress and knows how to inspire it.

The days of a passive Presidency belong to a simpler past. The next President must take an activist view of his office.

He must articulate the nation's values, define its goals and marshal its will. The Presidency will be deeply involved in the entire sweep of America's public concerns.

The first responsibility of leadership is to gain mastery over events and to shape the future in the image of our hopes.

The President cannot stand aside from crisis; he cannot ignore division; he cannot simply paper over disunity. He must lead.

But he must bear in mind the distinction between forceful leadership and stubborn willfulness.

And he should not delude himself into thinking that he can do everything himself. America today cannot afford vest-pocket government, no matter who wears the vest.

In considering the kind of leadership the next President should give, first consider the special relationship of the President to the people—that has developed between President and people.

The President is not to follow the fluctuations of the public opinion polls, but to bring his own best judgment to bear on the best ideas in this administration can muster.

There are occasions on which a President must take unpopular measures.

But his responsibility does not stop there. The President has a duty to decide but the people have a right to know why.

The President has a responsibility to tell them—to lay out all the facts, and to explain not only why he chose as he did but also what it means for the future.

Only through an open, candid dialogue with the people can the President maintain his trust and his leadership.

It's time we once again had an open administration, one that is from the people, and open in its communication with the people—an administration that opens doors, open eyes and open minds.

When we debate American commitments abroad, for example, if we expect a decent hearing from those who now take to the streets in protest, we must recognize that neither the Department of State nor Defense has a monopoly on all wisdom.

We should bring dissenters into policy discussions, not freeze them out. We should have constructive criticism, not only because the critics have a right to be heard, but also because they often have some thing worth hearing.

A related point is that the President must not oversee every detail,

President cannot isolate himself from the great intellectual ferment of his time. On the contrary, he must consciously and deliberately place himself at their center.

The lamps of enlightenment are lit by the flame of controversy. His flame can be snuffed out by the blanket of "consensus."

This is one reason why I don't want a government of "yes men." It's why I do want a government drawn from the broadest possible base. An administration made up of Republicans, Democrats and independents. An administration drawn from politics, from career government service, from universities, from business, from the professions—one that includes not only executives and administrators, but scholars and thinkers.

What the President is a leader of thought, he is also a user of thought, and he must be a catalyst of thought.

The thinking that he draws upon must be the best in America—and not only in government.

What's happening today in America and the world is happening not only in politics and diplomacy, but in science, education, the arts—and in all areas a President needs a constant exposure to ideas that stretch the mind.

Only if we have an administration broadly enough based philosophically to ensure the ferment of ideas, and to invite an interplay of the best minds in America, can we be sure of getting the best and most penetrating ideas.

We cannot content ourselves with complacency, with an attitude that because something worked once before, it must be good enough for us now.

The world is changing. America is changing, and so must our ideas and our policies change, and our pursuit of the new must be an unremitting pursuit of excellence.

When we think of leadership, we commonly think of persuasion. But the coin of leadership has another side.

In order to lead, a President today must listen. And in this time of searching and uncertainty, government must learn to listen in new ways.

A President has to hear not only the clamorous voices of the organized, but also the quiet voices, the inner voices—the voices that speak through the silences, and that speak from the heart and the conscience.

These are the voices that carry the real meaning and the real message of America.

He's got to articulate these voices so that they can be heard, rather than being lost in the vast bellow of what too often passes today for public discourse.

He must listen, be in the words of Woodrow Wilson, "the spokesman for the real sentiment and purpose of the country."

The President is the one official who represents every American—rich and poor, privileged and poor.

He represents those whose misfortunes stand in dramatic focus, and also the great, quiet, forgotten majority—the non-shouters and the non-demanders, the millions who ask questions of life, but live in decency and dignity, and to have their own rights accorded the same respect as they accord the rights of others.

Only if he listens to the quiet voices can he be true to this trust.

This I pledge, that America's citizens will not have to break the law to be heard; they will not have to shout or resort to violence.

We can restore peace only if we make government attentive to the quiet as well as the strident, and this I intend to do.

But what of the burdens of the Presidency? Have they, as some maintain, grown beyond the capacity of any one man?

The Presidency has been called an impossible office. If I thought it were, I would not have sought it.

But the burdens of the Presidency have become lighter, the President's time drained away on trivia, the channels of authority clogged.

When questions of human survival may turn on the judgments of one man, he must have the powers of concentrated thought that only he can make.

One means of achieving this is by expanding the role of the Vice-President, which I will do. I also plan a reorganized and strengthened cabinet, and a stronger White House staff than any yet put together.

The people I served not only as a President, but by an administration, and not only by an administration, but by a government.

The President's chief function is to lead, not to administer. It is to lead, not to oversee every detail,

IPC Joins Other Firms In Study of Reactor Plant

Illinois Power Co. announced today that it has joined a group of United States and foreign utilities and General Electric Co. in a plant design study of a 300,000 kilowatt sodium cooled breeder reactor plant.

The initial phase of the design study, which has been under way for about 18 months and will continue until February 1969, is directed toward establishing an overall plant design. The second phase of the work, started on Oct., emphasizes overall system analysis to investigate all performance and safety characteristics of the plant design. Work on this phase will continue until August 1969. The work is being carried out at GE's Advanced Products Operation in Sunnyvale, Calif. The work on the entire program has been estimated to cost \$1,400,000.

The design study plant will utilize molten sodium to remove heat from the nuclear core of the reactor. The heated sodium will then be passed through heat exchange equipment to generate superheated steam to drive a conventional design turbine-generator.

The "breeder" reactor is

looked upon by many experts as the electric power producer of the future. The name "breeder" comes from the fact that in this type of reactor, in addition to generating heat to make electric power, excess neutrons beyond those required to sustain the chain reaction are utilized to convert non-fissionable form of uranium into the fissionable element plutonium. Thus, while producing power, new power is created in the reactor core. The quantity of new fuel exceeds that which was "burned" to produce power and thus the name—"breeder."

The other electric utility companies sponsoring the study along with GE are Commonwealth Edison Co., Chicago; Detroit Edison Co., Detroit; Duke Power Co., Charlotte, N.C.; Pacific Gas and Electric Co., San Francisco; the Southwest Atomic Energy Association (a group of 17 utilities), Little Rock, Ark.; Baltimore Gas and Electric Co., Baltimore; and Atomic Energy of Canada Ltd., Ottawa. Other participants are Grange AB & Co. of Stockholm, Sweden and Statens Vattenfallverket (the Swedish Power Board), also of Stockholm.

Named as team captains were Raymond Henley, E. E. Vehl, Vernon Tharp, Robert Brave, Edward L. Stone, Carl Roach, Don Z. Farrington, Ted Ellerman, Arthur D. Roseman and C. A. "Bud" MacMillan.

Prizes to be awarded members of the winning team will be announced later, Michel said. The contest will end next spring.

Navy Dept. Needs Typists, Stenos

The Department of the Navy in Washington, D.C., has a definite need for civilian typists and stenographers to fill essential positions in its administrative offices. To help meet this need, Miss Inese Soles, Navy Civilian Representative, will be located at the Navy Recruiting Station, 208 North Broadway, St. Louis, Mo. 63102. Tel.: 268-2525, beginning Tuesday.

Interviews will be conducted daily Monday through Friday; Saturday and evening appointments may be made by writing or calling.

Salaries range from \$81 to \$110 a week with promotional opportunities and possible yearly increases. Benefits include a five-day work week, interesting assignments, at least 2½ weeks paid vacation, sick leave, group hospitalization, on-the-job nursing service, optional life insurance, and non-profit cafeterias. Temporary housing is arranged by Navy in advance of arrival and assistance is given in finding suitable permanent accommodations.

Applicants who have not qualified must take a civil service examination which includes a general abilities test and a five-minute typing exercise at 40 words per minute. For stenographers, a three-minute dictation exercise is given at 90 words per minute. Minimum age requirement is 17 years.

According to the Navy civilian representative, employees enjoy many cultural and recreational activities. Four leading universities afford Navy civilians the chance to attend night school for further education and greater job opportunities.

Applications are being accepted for filling immediate vacancies as well as for openings at a later date.

Join in Court Fight Over Tax Amendment

E. Edgerton Hart, executive vice-president of the Illinois Manufacturers' Association, and Joseph T. Meek, president of the Illinois Retail Merchants Association, announced today that their associations have joined in filing an Amicus Curiae (Friend of the Court) proceeding before the Illinois Supreme Court in the appeal of a case involving business tax amendments.

The suit now pending is directed against State Treasurer Adlai Stevenson and Secretary of State Paul Powell.

The case challenges the constitutionality of a 1967 Illinois franchise tax amendment which imposes a new minimum combined annual franchise tax and supplemental annual franchise tax of \$100 and maximum combination tax of \$1 million.

The two state-wide associations contend that the changes are unconstitutional under the Illinois Constitution for failure to comply with the uniformity provision of the Revenue Article and under the Constitution of the United States for failure to provide the equal protection of the laws required by the 14th amendment.

Both associations leaders said that "the many vigorous and job-giving small, medium and large businesses which contribute so much to Illinois economic and civic leadership, should not be further burdened with outlandish inequities which defy both the state and federal constitutions."

Mrs. Hornberger is
Honored at Office

Mrs. Margaret Hornberger, chief deputy assessor in the Township offices who will begin her 23rd year in that office on Veterans Day, was given a surprise party Friday afternoon by fellow employees in the office to mark the occasion.

Mrs. Hornberger recalls that she began work on Armistice Day 1945, just after the close of the war when the office was located in the city hall and the late Quincy Mathis was assessor.

She began then what she thought was temporary employment. There were four lot blocks and only 50 subdivisions. After annexation to the city of Nemeoki, which became a part of the township in 1955, there was a great increase in work. There are now seven lot blocks and in 1967 the city boasted 12,500 different parcels to be checked.

The offices are now located in the Fishman building on Delmar avenue.
